

A common scenario in retro coaxial installs is finding the stub end of a coax cable protruding on the inside of the wall outlet or MDU box. Stripping a standard coax cable is difficult due to the restricted terminating space. We have the solution. Use the Stub-End Coax Cable Stripper!

Screwdriver-Style Rotation

- Strips in restricted terminating space
- Rotates like a screwdriver and in either direction
- Built-in braid comb for combing braid back over jacket
- Replaceable blade cassette, no adjustment required
- Strips both RG59 and RG6 coax cable
- Braid Strip Dimension: 1/4" / 0.250" / 6.3

Product Specifications

- Body Material: ABS Plastic
- Length: 4.3" x 2" x 1.3" / 109mm x 53mm x 32mm
- Height: 2" / 53mm
- Width: 1.3" / 32mm
- Weight: 0.08 lbs / 34g
- COO: Taiwan
- Weight: 0.13 lbs
