

Description:

Desco Static Dissipative Paper Tags are ideal for companies using paper documents in ESD protective areas (EPA). The paper is permanently static dissipative, has low sensitivity to changes in relative humidity, and is low in amine, chloride and sodium. The paper has a hard surface to write on, and is used primarily to keep track of circuit boards or sub-assemblies. Meets ANSI/ESD S20.20 and is static dissipative per ANSI/ESD S541.

Specifications:

Base Weight (3,000 sq. ft.)	100 lb
Caliper (thickness mils)	7.0 (0.0070")
Surface Resistance (Rs)	1 x 10 ⁴ to < 1 x 10 ¹¹ ohms per ANSI/ESD STM11.11

16102	ESD Tag "Hold", Pink, 2.27" x 5"
16103	ESD Tag "Rework", Blue, 2.27" x 5"
16104	ESD Tag "Special Instructions", Green, 2.27" x 5"
16105	ESD Tag "Scrap", Yellow, 2.27" x 5"
16106	ESD Tag "Work in Process", White, 2.27" x 5"
