

SealSmart II Compression Tool

SealSmart II –
always the right tool
for compression
connectors!

SealSmart II Compression Tool

Easily terminate F, BNC and RCA
connectors with a single tool –
without switching adapters!

- Compact and lightweight design
- Universal head designed to work with all standard compression connectors available on the market – including right-angle and RGB mini
- Quickly and easily adjust crimp height
- Eliminates the need for separate adapters
- Fast and reliable terminations

Application

- CCTV
- Digital satellite systems
- CATV
- Residential structured wiring
- Security installations
- Commercial structured wiring
- Home theater
- Use on coax cable sizes RG6 Quad, RG6, RG59, RGB/Mini 59, 23, 24 and 25 AWG

Technical Data

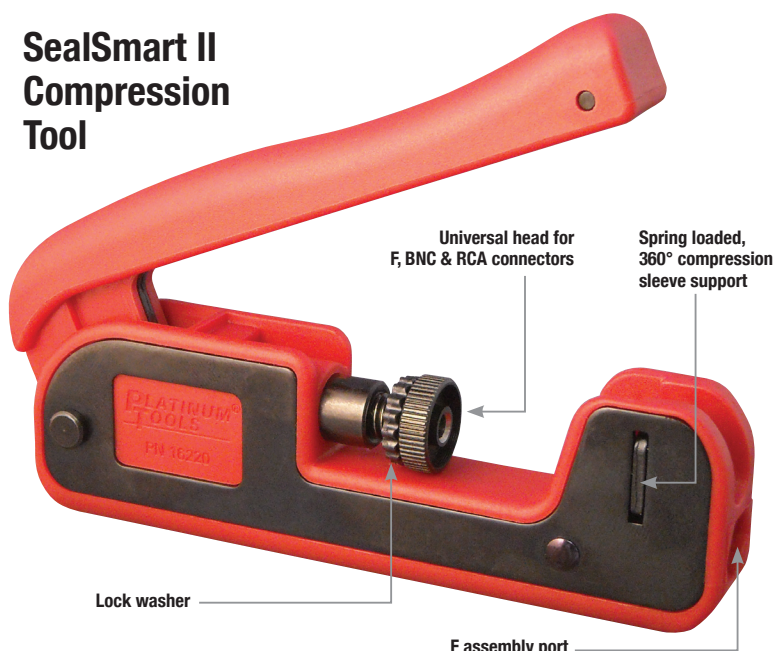

- Weight: 7.3 oz
- Dimensions: 5" X 2.125"

SealSmart II Compression Tool

ProStrip 25R

The ProStrip 25R is a rugged 2 level coaxial cable stripper featuring quick change blade cartridges pre-set for industry standard 1/4" cable preparation. Two stripping ports and stainless steel rollers provide smooth non-binding rotation on a wide range of cables. No adjustments required!

- Strip RG 6 and RG 59 in the large port
- Strip RGB/Mini 59 (23, 24 & 25 AWG) in the small port

SealSmart Color Bands

SealSmart color bands provide a simple cable management solution when installing video and audio cable compression connectors. Slide the color band onto your cable prior to stripping. After termination, slide the band over the rear of the connector for easy cable to port identification. Will not stretch or slip.
