# Mosaic 2.1

## Imaging Software

### Mosaic Software

Compatible with Mosaic V2.1 Computational Imaging Software. Fast, efficient and worry-free the core design concept of Mosaic V2.1 software. It adopts a new image "shooting-processing-measurement-reporting" function, modular design, and integrates various intelligent image processing algorithms. It is dedicated to providing users with more simple operation modes and improve work efficiency in all circumstances.

### Professional Digital Image Measurement System

Mighty Cam Pro provides extremely powerful measurement functionalities including, freehand line, rectangle, polygon, circle, bi-circle, angle, point-line distance and much more. Three different length units of millimeter, centimeter, and micrometer are provided to meet various measurement requirements in different applications.

### Real-Time Image Stitching

It can generate large-sized mosaic images in a few seconds while moving the stage, which is light, smooth and worry-free! Real-time depth-of-field fusion.

### Perfect Color Reproduction

Aven's color processing is capable of a new level of precision, matches the monitor image to the eyepiece view, produces extremely-high color definition.
