

Ring Light **LED** w/Polarizer

Reduces Glare or reflection and brings out surface detail

60 LED ring light with Polarizer/Analyzer is ideal for illuminating shiny or highly reflective parts. Rotate the polarizer ring slowly till the glare is reduced or eliminated.

The LED lights are flicker free, energy efficient and ecofriendly and operate at low temperature and do not change color over time.

Opening 70mm with three thumb screws for easy mounting.

Comes complete with light control box and ring light adapter.

Features

- Polarizer with Analyzer reduces glare and reflections from shiny parts
- Flicker Free
- No color change with temperature
- Energy saving and eco friendly
