

Unique Viewing Angles
Provides a 35 degree angled view

360 Degree Rotation
No need to move the part

360 Viewer

For the MicroVue Digital Microscope

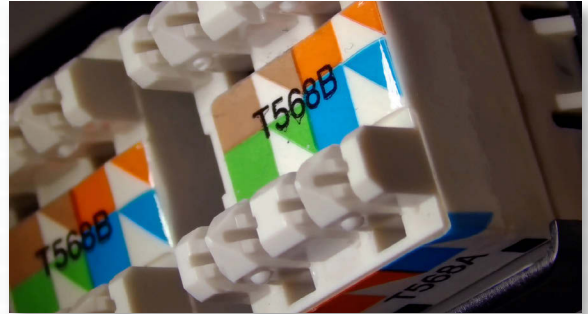

Item # 26700-140-3DA

The 360 Viewer Attachment's unique design gives operators a new perspective on objects being viewed. The 35 degree angled mirror is ideal for looking around multi-layered parts such as circuit boards, medical tools, industrial parts, and more. The attachment can be rotated 360 degrees to display the part from various angles.

Key Features

- 360 Viewer attachment provides a 35 degree angled view
- Can be rotated 360 degrees to view areas that are otherwise difficult to see
- Easily slides to the on or off position without having to remove the 360 Viewer attachment
- Compatible with the MicroVue Digital Microscope (item # 26700-140)
