

Description

Desco's Double-Faced Acrylic Tape is a pressure sensitive adhesive with release liner. This tape is ideal for use on mats that slide around or curl and create a tripping hazard. It is also a great choice for securing mats to metal carts and workstation surfaces. Our acrylic tape can be applied to concrete or sealed floors, metal carts, work benches, and just about any other hard surface. It is ideal for all mat materials we offer, which include vinyl, rubber, cellular, and sponge products. The tape adheres to the substrate, but can be removed (but not re-used) with no damage to the either the mat or substrate.
