

Description

Desco's Carpet Gripper Tape is constructed of a flexible hook tape on one side and adhesive tape to secure to mat materials on the opposite side. The flexible hook tape is designed to substantially increase the holding strength of the mats to carpets. It prevents mats from curling or slipping, and is easy to install. It is ideal for all mat materials we offer, which include vinyl, rubber, cellular, and sponge products. The tape adheres to the substrate, but can be removed (but not re-used) with no damage to either the mat or substrate.

Important Information

- 1) The product should be applied at room temp. of 68°F
- 2) Surface should be clean, dry and free of any oils
- 3) Use a Clean applicator with rubbing alcohol free the surface area of any contaminates and allow it to dry before installing the tape
- 4) Peel off the release liner and apply the tape with slight pressure on to the surface
- 5) Be careful not to touch the adhesive with your fingers because of the oils on your skin
