

Made in the United States of America

Description

Desco's clear Dissipative Cart Covers are made from a dissipative (1×10^9 to $< 1 \times 10^{11}$ ohms per ANSI/ESD STM11.11) and low charging 0.012 inch polyvinylchloride (PVC) material. They are designed to be used with ESD susceptible items and allow contents of the carts to be identified without opening the cover. The covers include zippered front flaps that may be left open for access to the cart when the flap is opened. The flap can be locked (lock not included) closed to prevent tampering with cart contents when not in use. A dissipative document pocket is located on the outside of the cart to store documents.

Electrical Properties

Surface Resistance 1×10^9 to $< 1 \times 10^{11}$ ohms per ANSI/ESD STM11.11

Physical Properties

Color	Clear*	
Emboss Pattern	Non-Embossed	
Gauge	0.012" \pm 0.002" ($\sim 1/80$ ", 12 mils)	
Tensile	1000lb/in ² minimum	ASTM D412, Die C
Elongation	150% minimum	ASTM D412, Die C
Tear	125 lb/in minimum	ASTM D624, Die C

Chemical Resistance

Resistant to degradation by inorganic acids, organic acids, reducing agents, detergent solutions, alcohols, aliphatic hydrocarbons, mineral oil, amines, and aldehydes.

Item	Description (DxWxH)
68200	Cart Cover, 23" x 32" x 41"
68201	Cart Cover, 24" x 36" x 62"
68202	Cart Cover, 24" x 48" x 62"

*Color and texture may vary between lots and mills. Original product color may change over time.

Unless otherwise noted, tolerance $\pm 10\%$
