

COMPONENTS FOR CONNECTING

Fiber microscope

AF-012

200x optics

LED light

Easy inspection on the ferrule

200x microscope designed for inspecting fiber ends, to look for dirt, impurities and oils that might interfere with signal transmission. It includes a universal 2.5 mm adapter for inspecting ST, SC or FC connectors, as well as a 1.25 mm adapter to inspect LC ferrule connectors. This microscope uses an oblique and coaxial LED light (powered by 2 AA batteries, included). Padded included.

*The fiber microscope is available as a separate accessory, being part of the **PL-10 Connecting Kit** or part of the **OP-040 Fusion Extension Kit**, which in a suitcase includes all the most important tools and accessories to make inexpensive fiber connections.*
