Durability Meets Precision

These 8-inch Stainless Steel Diagonal Cutters are crafted for those who demand reliability and precision in their tools, offering unmatched performance and comfort for various applications, including electrical work, crafting, DIY projects and more!

Key Features

- **High-Quality Material:** The high-grade 304 series stainless steel ensures exceptional durability and resistance to corrosion, making them ideal for long-term use in diverse environments
- **Semi-Flush Cutting Blade:** The semi-flush design is perfect for achieving clean, professional cuts
- **Compact yet Powerful:** Measuring 200 mm (8"), these diagonal cutters allow for excellent control and leverage while fitting seamlessly into your toolbox or workshop
- **Suitable for a Wide Range of Wire Gauges:** The blade length measures 30 mm (1.1"), providing a large cutting area

Diagonal Cutters 304 Series Stainless Steel 8"	
Item #	ST8303-1004
Overall Length	200 mm (8")
Head Width	22 mm (0.87")
Head Style	Oval (Semi-Flush)
Blade Length	30 mm (+/- 1mm) 1.1811" (+/- 0.04")
Max Jaw Opening <i>(From the top of the blade)</i>	30.36 mm (+/- 1mm) 1.2" (+/- 0.04")
Material	Blade: 304 Stainless Steel Grip: Polypropylene (PP) + Thermoplastic rubber (TPR)
Cutting Capacity	<ul style="list-style-type: none"> • Low carbon steel wire (or wire with lower hardness than it) Diameter ≤ 1.6 mm (0.06") • Soft copper wire Diameter ≤ 2 mm (0.08")
