my FUGE Mini

Mini Centrifuge

Clik-n-Lok™ Instant rotor attachment

Eight position microtube rotor

Storage compartment for PCR rotor and 0.5ml & 0.2ml adapters

Decelerates in just 1 second

Four position PCR strip rotor

Technical Data

Speed: 6,000rpm / 2,000 xg Capacity: 8x1.5/2.0ml tubes

32 x 0.2 ml PCR tubes

4 x PCR strips (8x0.2ml)

5.7x6.9x4.5 in Dimensions:

14.5 x 17.8 x 11.4 cm

Weight 2.2 lbs/1 kg

100 - 240V, 50-60Hz Electrical:

Capacity

The myFuge™ Mini centrifuge is a personal centrifuge that virtually fits in the palm of your hand. Ideal for quick spin downs of microtubes and PCR tubes, the MyFuge is extremely easy to use. Simply close the lid and the rotor instantly reaches 6,000 rpm. Open the lid, and the improved braking system quickly and smoothly decelerates the rotor to a complete stop in just one second.

An eight-position microtube rotor is included and comes installed. Also included is a second rotor with increased capacity for four 0.2ml PCR strips (or 32 x 0.2ml tubes) which is stored in a convenient compartment on the bottom of the centrifuge. This compartment is also used for securing the included tube adapters for 0.5ml tubes.

A new Clik-n-Lok™rotor attachment system eliminates the requirement for set screws and tools during rotor exchange. Simply remove and attach rotors by hand, pulling or pressing the rotor onto the motor shaft.

Storage Compartment

Includes Both Rotors
