

## HOBO® CABLE-RWL

### Water Level Sensor Cable for RX2100

The water level sensor cable provides the connection between the HOBO MicroRX Water Level Station (RX2100-WL) and the water level sensor. Cables can be ordered in lengths from 1 meter to 400 meters for deployment in a wide range of applications. The 1, 2, 5, 10, 15, 30, and 60-meter cable lengths are standard and typically in stock. Custom cable lengths require a lead time of one to two weeks.

PLEASE NOTE: Custom cables are ineligible for return.

#### Key Advantages:

- Interchangeable Kevlar-reinforced cable can be used to suspend sensor
- Provides sensor communication and power
- Integrated strain relief provides support for long cables
- Two O-rings in the water level sensor connector ensure a long-term waterproof seal
- Cables are easy to attach or change
