

# ADDITIONAL SHEET PATCH CB-077

**IMPORTANT:**

Due to an improvement on the technology of the CB-077 pack, after installing the new pack (code 0 PI0283) on your field meter, you will have to send an update file to it in order to optimise the indication of charge level.

**PROCEDURE:**

- 1.- Connect to **PROMAX** website and go to the **DOWNLOAD** area.
- 2.- Click on "**Software & Firmware**" window and select your meter in the dropdown menu.
- 3.- Then it appears a list with all the software associated with the meter. Go to the paragraph with the title "**Patch CB-077**" and click on it. A window will open with the file to download, called "**Battery\_config\_\*.pro**" (1).
- 4.- Click on the file to start the download process. Save the file to your **PC**, for example in the folder "**My Documents**".
- 5.- On the other hand, turn on your field meter and connect the **USB/RS232** port to the **PC**.
- 6.- Run **NetUpdate**.

**NOTE:** To transfer a file from your **PC** to the equipment you need to have installed on your **PC** the latest version of the program **NetUpdate** by **PROMAX**. If not, download it for free and install it on your **PC**.
