

## CD611

Conductivity Economical Pocket Tester

Rating: Not Rated Yet

### Description

#### **CD611 Conductivity Economical Pocket Tester**

Milwaukee's economical testers are easy-to-use and low cost instruments to measure quick and reliable pH, EC or TDS values. Measuring electrical conductivity is the best way of checking the amount of salt or dissolved solids (TDS) in water.

Milwaukee provides you with a range of pocket testers that will allow you to measure from very low to very high conductivity solutions. All EC/TDS testers compensate for the temperature variance automatically.

The CD611 is a Conductivity tester specifically designed for water analysis. The calibration procedure is very simple and fast. This tester has automatic temperature compensation, 100  $\mu\text{S}/\text{cm}$  resolution and a range of 0 to 20000  $\mu\text{S}/\text{cm}$ . CD611 is supplied complete with protective cap, calibration screwdriver, batteries and instructions.

# Conductivity: CD611

---

Specification	CD611
Range	0 to 20000 µS/cm
Resolution	100 µS/cm
Accuracy	±2% Full Scale
Calibration	manual 1 point
Temperature Compensation	automatic from 5 to 50°C
Environment	0 to 50°C / 32 to 122°F; max RH 95%
Battery Type / Battery Life	4 x 1.5V, alkaline / 350 hours of use
Packaging dimensions	160 x 65 x 32 mm
Packaging weight	120 g

## Accessories:

- **M10030B** 12880 µS/cm calibration solution, 20 ml sachet (25 pcs)
- **MA9305** 1.5V batteries (100 pcs)

## Ordering information:

CD611 is supplied complete with protective cap, calibration screwdriver, batteries and instructions.
