

DPR302 & DPR305 Differential Pressure Manometers

Measure gauge and differential pressure

Features:

- 11 units of measure
- Convenient quick-disconnect fittings
- Min/Max/AVG records highest, lowest and average readings with relative time stamp
- Data Hold momentarily freezes the displayed reading for easy viewing
- Large backlit LCD display
- Zero adjust and Offset functions
- Auto Power Off with disable
- 4 Digit LCD with Backlight
- Fits 1/4" and 1/2" ID Flex Tubing
- Includes (3) AAA batteries, USB cable (for power only), sample tubing and pouch case

Model DPR302:

- ±2psi range

Model DPR305:

- ±5psi range

Applications:

Use one input to measure gauge pressure of a single source. Use both inputs to measure the differential pressure between two points of a single source or between 2 sources revealing which input has the higher pressure and the difference between them
