EX8xxA Series 1000 A Clamp Meters with IR Thermometer

Clamp meters with built-in non-contact infrared thermometer

The EX8xxA Series of CAT-IV 600 V True RMS clamp meters stand out with their built-in IR thermometer and laser pointer for non-contact temperature surface measurements. Packed with advanced features such as Low Impedance Mode (LoZ) to prevent false readings from ghost voltages, and a Low Pass Filter for precise measurement in electrically noisy equipment, these meters also include an inrush current feature to capture start-up current. The ergonomically designed double-molded housing offers a better grip for one-hand operation. Ideal for electricians, electrical contractors, and plant maintenance professionals.
