

LARGEST PIPE CLAMPS EVER MADE

When Size, Accuracy and Speed Matter.

These pipe clamps are large and in charge – a perfect match for any commercial, refrigeration or residential/ light commercial HVACR pro in search of lightning-fast precision readings without the inconvenience of straps, tapes or zip ties.

These innovative state-of-the-art clamps let you measure pipes up to 4 1/8" in diameter with just one hand, and thanks to our patented Rapid Rail™ Sensor Technology—which uses electrically conductive pipe to complete the circuit – you get 100% accuracy in an instant.

With the widest pipe clamp range available (3/4" to 4 1/8"), size isn't the only thing they offer:

Large Pipe Clamps, Wireless JL3LC , Wired TC48

- Compact design for easy storage
- Fast set-up and reaction time; stabilizes in seconds
- Waterproof and rugged
- Single-hand operation with comfortable, ergonomic grip
