

Test 30% faster, document and report 50% faster

Fluke 1670 Series Multifunction Installation Testers

Faster installation testing and documentation in three easy steps

1. Faster setup

Enter site information and circuit lists with your phone, PC or on the installation tester itself and store, access and share data seamlessly with Fluke Connect and TruTest Software.

2. 30% Faster testing

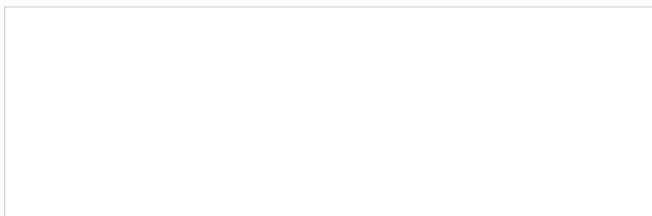

Perform All Required Tests up to 30% Faster with user-programmable Auto Tests and Automatic Measurement validation.

3. 50% Faster reporting

Reduce Documentation Time up to 50% and generate reports at the touch of a button by eliminating manual data entry and wirelessly transferring test results directly into TruTest Software.

* 30% faster testing compared to manual testing. 50% faster reporting and documentation based on customer interviews.
