(washer placed between fan and post)

XF01
Filter Set

XF02
Primary Rotating Filter

XF03
Charcoal Impregrated Stationary Filter

XF02
Primary Rotating Filter
The XF02 filter element rotates at the same speed as the fan blades. Fumes and nail residues are evenly distributed.
(set of 5)

5. SR475 Circuit Board Assembly

Items 2, 3 & 5 are Serviced at the Factory

Filter Replacement
1. Pull out dirty filter from hub when fan is off.
2. Replace with new XF02 Primary Rotating Filter

Green LED
(indicates air flow towards fan)

Front View
(air input)

Rear View
(air output)

Yellow LED
(indicates air flow away from fan)

Universal 12VDC Input Jack Type: J4 Female 2.1 mm x 5.5 mm. Recommended 12VDC, 500mA Power Supply

Variable Positioning

Louvres
when extracting nail residue from the air

The XF02 and XF03 filter elements can be used separately. For maximum filtration, install both filters.

For Drying Nails

While fan assembly is turned to face the opposite direction, remove both filters for drying clients nails.

features

- Powerful 12V fan motor removes unwanted fumes, powder residues and odors from the air

- Can be used to either filter or blow dry clients nails

- Ultra-quiet operation

- Rotating front filter provides filtration eight times better than a stationary filter

- Bright front (green) and rear (yellow) LED's to indicate power and air flow direction

- Adjustable to almost any working angle

- Quick filter replacement

- Internal safety grills
