

LED-3000 RING LIGHT

Model # LED3000

Luxo's NEW LED-3000 Ring Light maximizes light output and distribution while preventing harmful glare and reflections. Its brilliant 40 LED display makes this ring light ideal for the inspection of surface cracks and defects as well as for lead-free inspection. Pure-white LED light eases the examination of welds, solder joints, flux residues and hairline stress cracks.

- 40 individual pure-white LEDs which consume 9W of power
- 50,000 hour lumen maintenance (lamp life)
- 6000°K color temperature – perfect for lead-free inspection
- Self-contained on/off and dimming controls – no need for an external controller
- Fits most microscopes
- Dimmable to 15% output
- Up to 3600 footcandles at 4.5" working distance
- Removable/replaceable diffuser cover which allows for easy cleaning and protects the LED array from damage and contamination
- 5-year warranty
