SIMPLICITY...

Loopy 5000 and Loopy 6000
Portable 24V Loop Power Supply

The Loopy 5000/6000 provides field technicians a portable, economic, and durable 24VDC power source for powering field transmitters. This is especially useful during plant startup, shutdown, and overhaul, where the loops are not usually energized, but field instruments must still be able to installed, tested, and calibrated.

Efficient switching regulator allows LPS to extract virtually 100% of available battery power

Accidental short circuits protected by positive coefficient temperature coefficient

The Loopy 5000 offers superior portability from the palm of your hand to your shirt pocket.

The Loopy 6000 offers extended battery life designed to operate for a month under daily use.

Size:

Loopy 5000: 3.8"x2.4"x0.9" powered by one (1) 9 volt battery

Loopy 6000: 5.8"x3.6"x1.3" powered by four (4) AA batteries

USA and International
Patents Pending
Made in the USA

Accidental short circuits are protected by a Positive Temperature Coefficient thermistor.

Can power any 4-20mA loop.

A must have for any field technician's tool bag.

No need to run wiring. Great for powering within environmental chambers.
