## MC-TANKBRKT-2 MAGNETIC STABILIZER TANK BRACKET

- Place the brackets as pictured between the tank and scale platform
- Magnetic feature will ensure a secure fit.
- Remove the magnetic stabilizing brackets before R/R/R use to ensure proper charging.

Mastercool's Magnetic Stabilizer Tank Bracket allows the end user to transport their COMMANDER recovery/recycle/recharge machine to different locations without having to recalibrate the scale.

- Prevents the transducer from shifting during transit
- Transport through normal road conditions (no off-road conditions)
- For use with all Mastercool COMMANDER R/R/R machines
