

SEESNAKE® MICRODRAIN™ INSPECTION SYSTEM

The microDrain™ Inspection System represents a huge leap forward in small diameter drain inspection technology paired with the durability you expect from RIDGID®. The microDrain System will allow you to quickly inspect places previously unreachable – providing true accessibility, increased efficiency, and reduced job time. The microDrain System is optimized for tight turns.

BENEFITS

- **Small Diameter and Tight Turn Radius** camera head gets you through many toilet traps and 1/4" lines
- **Multiple Monitor Compatibility** allows you to use the microDrain reel with your SeeSnake monitor or the micro CA-300 Inspection Camera
- **Lightweight and Compact** unit allows you to easily stow and carry the camera in your truck and onto the job site providing solutions whenever and wherever you need them
- **Interchangeable Drums** let you change out the inner drum depending on the application. Choose from:
 - **L100 and LT100C** – 11/2 to 4 inch lines with a stiffer push cable allowing you to inspect lines up to 100 feet
 - **D65S** – Small diameter with tight turns, 11/2" to 3" P-Traps, toilet traps for lines up to 65 feet

SPECIFICATIONS

- Camera Head 0.86" (22 mm)
- Cable Length 65' (20 m)
