Multi-Purpose Portable Balances Suitable for Everyday Weighing

OHAUS raises the bar in price-performance ratio with the newly-designed Navigator series which is perfect for general weighing applications in laboratory, industrial and education settings. Ruggedly constructed and multifunctional, the Navigator is a powerful balance that can handle a diverse range of weighing applications with features such as fast stabilization time, overload protection at four times its rated capacity, and easy operation.

Unique Features:

- Navigator offers essential weighing applications at a competitive price point.

- Advanced weighing technology offers one-second stabilization for fast and accurate weighing results, improving operator efficiency, productivity and throughput.

- Overload protection system that can withstand loads up to four times the rated capacity safeguards the balance.

Built-in Application Modes

- **Weighing** – Determines the weight of items on the pan in the selected unit of measure

- **Parts Counting** – Counts the number of pieces on the pan using a uniform weight.

- **Percent Weighing** – Measures the weight of a sample displayed as a percentage of pre-established reference weight.

- **Check Weighing** – Compares the weight of sample against target limits.
