- Depth to 4 ft.
- Receiver Volume Control
- Standard 33khz Tracking Signal
- Ground Stake Included
- Transmitter Automatic Off Switch
- Uses 8 C Batteries and one 9 volt (not included)

FEATURES

The unique Pro290 Mini Wire Locator is a great tool for contractors tracing underground cables like CATV and telephony drop wires. The Pro290 Mini consists of a transmitter and receiver and uses a limited power output to match sensitive electrical equipment. The Pro290 Mini uses an easy to track 33khz frequency, and sets up in less than a minute.

Simply connect the Pro290 to the wire to be tracked and to the ground stake in dirt, get a good ground indication, and track the beeps with the hand held receiver. It's that easy.

Finding breaks in wires is easy too. When tracking a wire path, the signal will end when the path ends. This could be the end of the string or wire but additionally, can indicate where a wire has been cut.

SPECIFICATIONS

Power Requirements: Transmitter - (8) C batteries; Receiver - (1) 9V battery

Transmitter Frequency: 33Khz

Transmitter Power: 100 mw @ 1K Ohms

Weight: 4 Lbs with case

Warranty: 12 Months

Box Contents: Transmitter, Receiver, Ground Stake and Antenna

Range: Up to 1,000 ft.

Depth: Up to 4 ft. deep
