

**5" Round Fluorescent
Crown White Glass**

Prolite®

Economy Fluorescent Magnifiers - EM Series

Our value line of magnifying lamps provide excellent optics, with light-weight arm and shade construction. These 5" round crown white glass magnifiers come in two distinct magnifications: 3 Diopter (1.75x) and 5 Diopter (2.25x). These are the perfect lamps for retail and light duty use.

These magnifiers use a high output 22W circular bulb. Bulb shields are included standard, for additional operator safety.

These lamps are sold standard with a table edge mounting clamp, but can be used with a whole array of optional mounting choices (*explained below*).

FEATURES:

- Crown White Optical Quality Glass
- Table Edge Clamp Standard
- 120V Only
- Integrated Shade Grab Handle
- Optional Mounting Bases Available
- Choice of Two Magnifications
