

MTC Bio™ STORAGE RACKS & BOXES

- Polypropylene, withstand -80°C
- 6 types - for 0.2ml to 50ml
- Compact & space efficient
- Autoclavable
- Numbered tube wells

Test Tube Racks

MTC Bio's benchtop tube racks are made of 100% polypropylene and are available in three popular configurations. No. R1030 is a 4-way rack that can be used to hold 4x 50ml, 12x 15ml or 32x microtubes (0.5, 1.5 or 2.0ml). They can be snap-linked together to form as large a rack as is needed. No. R1070 is a unique rack that holds 30x 15ml and 20x 50ml. No. R1050 is a reversible rack for 96x 1.5ml on one side and 96x 0.5ml on the other.

Freezer/Storage Boxes

Suitable for refrigerator and freezer storage as low as -80°C, these boxes have translucent lids and numbered cavities. No. R1010 is a PCR workstation rack/box for 96x 0.2ml (plates, strips or individual tubes). No. R1020 is a 10x10 format with an attached hinged lid. No. R1060 is the standard 9x9 format with a friction fit lid.

Effective from 1, 2017. Subject to change without notice.
