

# Single End Ratcheting Box Wrenches

Full polish finish provides corrosion resistance and an easy-to-clean surface, while built in retaining ring in each ratchet wheel adds speed and convenience for great accessibility. Shorter length for access to confined workspaces. The wrench self-aligns with the fastener.

## Offset Wrenches

45° offset for greater access to confined workspaces.

## One Hander Wrench

One Hand Wrenches feature a strong, forged steel, one-piece handle. Spring-loaded jaws grip any shape: meter nuts, round pipe, or parts of fittings without adjustment. One Hand Wrenches work like a pipe wrench and provide better grip than pliers due to the jaws and tooth direction. Securely and immediately tighten and loosen without removing the wrench from pipe.

Ratcheting Wrenches

Tested to 10,000 VAC and Rated for 1,000 VAC when working on or around live parts

# Ratcheting Box End Wrenches

The secure hold and size benefits of the Cementex Box End Wrenches with the added features of a ratcheting head. Precision ratcheting head is guaranteed to withstand your heavy work load while saving valuable time.

- Classic design slightly larger than a standard box end wrench
- Slender head allows access to tight locations
- Wide range of sizes and length
- Reverse direction by flipping sides
- Cementex double layer insulation system utilizing superior material and processes to provide the safest insulated tools.
