

Get Fast and Accurate Shingle Installation with the Shingle Sider!™

The Shingle Sider from Pactool International combines simplicity with versatility to make wood shingle and shake installation faster and more accurate. It's perfect for both siding and roofing applications.

With its simple and sturdy adjustable clamp design, the Shingle Sider works as a pair to gauge and support your ledgerboard—without chalklines or nails—for one-person installation. It also eliminates unnecessary penetration of the vapor barrier.

Let the Shingle Sider become your number one tool for fast and accurate installation of wood shingle or shake siding and roofing!

Shingle Sider

Model SA908

- Supports ledger board for one-person shingle installation
- Works with shingle and shake siding or roofing
- Eliminates ledger board nailing and vapor barrier penetration
- Adjusts for virtually any reveal size

The Shingle Sider is sold in pairs.
