**NEW!**

# 3D Printing Finishing Tool

Item: **SI-169U**

**USB Powered • 15 Sec. Heat Up Time • Auto Sleep Mode  
Working Light Indicator • Quick Touch Switch • Max Temp 480° C**

**Knife:** For cutting and removing sections including the removal of supports, brims, and rafts from your 3D prints.

**Scoop:** Perfect to remove stringing and imperfections from inside holes or recesses. Can also be used to blend surfaces.

**Needle:** For clearing small holes and features or for detailed layer refinements in hard to reach places.

**Standard:** General purpose tip for larger internal features and holes. Can also be used to make holes after printing.
