## SLIP JOINT PLIERS

Slip joint pliers are designed from gripping and turning round objects such as pipes, rods and pins.

- Curved jaws combination with machined gripping teeth and wire cutter.
- Forged from carbon steel and accurately machined, hardened and tempered..
- High-visibility, ergonomic comfort-grip handles have slip guards.

| SLIP JOINT PLIERS     |                  |               |                 |
