

**100kg Capacity**

# TIF 9030

**Compact Refrigerant Scale**

- coil cleaners
- leak detection & monitoring
- recovery machines
- weighing platforms**
- acid treatment
- fragrances & odour control
- flame retardants
- tools & accessories

## KEY BENEFITS

**Completely portable – compact and battery powered**

**All in one molded design, means it is light yet sturdy**

**Easy to carry and store**

**Can be used with ALL Refrigerants**

**Good accuracy and resolution**

**High weight capacity**

**Suitable for use with the majority of cylinders**

**advanced**  
engineering

weighing platforms

## Compact Refrigerant Scale

A reliable weighing platform is an essential tool in the safe recovery and charging of refrigerants from air conditioning and refrigeration systems. They are necessary to ensure that cylinders do not exceed the "safe fill" level of 80 per cent at 70°F/21°C. Secondly they are important to ensure that exact amounts of refrigerant are transferred into the systems to ensure efficient operation.

refrigerant scales. This compact, portable unit offers all the features and performance that you expect from a sturdy weighing platform, at a break through price. The TIF9030 is suitable for use with all refrigerants and the majority of available cylinders. As you would expect from a high performance weighing platform, the TIF9030 has a weighing capacity of 100kg and is accurate to a tolerance of +/- 0.5%.

moulded design, which makes it light yet sturdy. It also comes complete with an over the shoulder carry case, making it easy to carry and store.

Introducing the TIF9030 compact

The TIF9030 utilises an all in one

### FEATURES

Over the shoulder carrycase

Maximum load of 100 kg (200 lb)

Accurate to +/- 0.5% of the reading

Display provides lb/oz, decimals lbs and kilograms measurements

Battery powered, one 9V alkaline battery

3 Control keys: ON/OFF, zeroing and measurement units

CE approved

One year Warranty
