

Test Equipment

VB450 Vibration Meter

Convenient compact sized Vibration Meter measures vibration levels in industrial machinery. Misalignment, poor balancing, structural compromises, and other factors can cause unwanted vibration increases. VB450 features a wide 10Hz to 1500Hz frequency range and provides Displacement, Velocity, and Acceleration measurement.

Applications: To ensure proper installation/maintenance for consistent productivity and operator safety of

- Motors, bearings
- Fans, Pumps, Rotating machinery
- Plant maintenance

Features

- Remote vibration sensor with magnetic adapter on 7.9" (0.2m) coiled cable
- Wide frequency range of 10Hz to 1500Hz
- Velocity (RMS), Acceleration (Peak), and Displacement (Peak-to-Peak) measurements
- · Automatic data hold after measurement button is released
- Auto power off after 1 minute
- · Low battery indicator
- Complete with remote sensor, magnetic mount, 9V battery, wrist strap, and soft case

Specifications

Acceleration (Peak)	0.1 to 199.9 m/s ²
Velocity (RMS)	0.1 to 199.9mm/s
Displacement (Peak-to-Peak)	1 to 1999µm
Resolution	0.1m/s², 0.1mm/s, 1μm
Basic accuracy	±(5% + 1 digit)
Dimensions	7.3 x 2.7 x 1.2" (185 x 68 x 30mm)
Weight	8.1oz (230g)

Ordering

VB450

™* Vibration Meter

11 *Indicates products that are available with optional calibration traceable to NIST. Order with -NIST after part number for product plus Calibration Certificate.
