HEAT GUN

SWISS-ENGINEERED

HEAT TO CREATE

INSPIRING PROJECTS. DRIVING PASSION.

For the Makers, the Doers, the Creators

Turn your ideas into reality with the Weller Heat Guns. Designed for you to take complete control of your projects, this Swiss-engineered tool delivers precision, comfort, and reliable performance in every task. Whether you're fixing, crafting, or improving, the Weller Heat Gun is built to be your go-to companion, making every project feel effortless.

Car Wrapping

Achieve perfect vinyl application with even heat distribution, allowing the material to stretch smoothly and adhere securely.

Stubborn Rusted Screws and Bolts

Loosen stuck or corroded bolts in seconds by applying direct heat to expand and release them.

Secure Electrical Connections

Securely insulate and protect electrical connections by shrinking tubing over wires for a professional finish.

Additional Home & Vehicle Applications :

- Remove Dents and Stickers
- Apply Edge Banding
- Patch Tarps
- Restore Plastic
- Replace Bearings
- Defrost
- Upcycle Old Furniture
- Shape Vinyl

And So Much More...

The Key to Effortless Home Renovation & Vehicle Repair

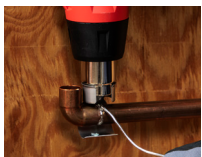

Fast Paint Removal

Heat softens paint for easy scraping, ideal for reviving old furniture or prepping walls.

Fast Paint Drying

Speed up drying times by directing controlled heat to freshly painted surfaces so that you can finish faster.

Solder Copper Pipes

Use the heat gun with a heat shield attachment for precise soldering of copper pipes, ensuring strong, reliable joints.

Effortless Control:

Adjust the heat with stepless precision, tailoring the temperature exactly to your needs, while the two-stage airflow system provides adaptable performance for various tasks.

Shape, Melt, and Mold Your Next Creation

Mold and Bend PVC Pipes

Shape pipes for your DIY projects without any hassle.

Woodburn

Create stunning wood art with a heat gun alone or add detail with a scorch pen.

Create Unique Art

Let your creativity flow by melting hot wax or using epoxy to create stunning textures.

Hands-Free Convenience

A 90° vertical stand offers secure hands-free operation, giving you more control and flexibility for detailed work.

"The Weller Heat Gun has brought my projects to life with quick heat-up and precise control, and I love the detachable heat shield for added safety."

WLACNSETHG2

Prevent Damage & Burn Risk

The Weller Clip-on Heat Guard enhances safety around high-heat areas of the heat gun. It reduces burn risks and prevents damage by limiting the outer temperature to 180°F while the gun operates at 1200°F, ensuring efficient and controlled use.

1200W HEAT GUN

WITH 2-STAGE AIR FLOW CONTROL

Product Number
WLHG1212A

Product Description

Perfect for arts & crafts, upcycling, and home improvement, this 1200W heat gun offers two airflow settings for versatile use. Its lightweight, ergonomic design ensures comfort while delivering reliable performance for creative and DIY projects

Technical Data

Power Consumption	1200 Watts
Temperature	Stage 1: 660°F / 350°C Stage 2: 1020°F / 550°C
Air Volume	8.8 / 14.1 cfm 250 / 400 l/min
Noise Emission Level	67 dB
Mains Supply Voltage	120V / 50/60Hz
Operating Modes	OFF / I / II
Weight	26.28 oz

1400W HEAT GUN

WITH STEP-LESS TEMPERATURE AND
2-STAGE AIR FLOW CONTROL

Product Number
WLHG1412A

Product Description

Designed for professionals, the 1400W heat gun provides precision with step-less temperature adjustment and two airflow settings. Its advanced design ensures superior control and performance, making it perfect for intricate tasks and heat-sensitive materials.

Technical Data

Power Consumption	1400 Watts
Temperature	180°F - 1120°F / 80°C - 600°C
Air Volume	12.4 / 15.9 cfm 250 / 450 l/min
Noise Emission Level	67 dB
Mains Supply Voltage	120V / 50/60Hz
Operating Modes	OFF / I / II
Weight	25.75 oz

Swift and Silent Motor

Experience the balance of power and quiet with a motor that heats up rapidly and operates at a low 67 dB, helping you start projects quickly while maintaining a quiet, focused workspace.

ACCESSORY KIT 1

WLACCNSETHG1

Includes

Tubular Nozzle

- Defrosting
- Soldering & Desoldering Electronics

Wide Slot Nozzle

- Roof Repair
- Paint Drying & Stripping

ACCESSORY KIT 2

WLACCNSETHG2

Includes

Heat Reflector

- Soldering Pipes
- Cable Shrinking

Glass Protection Nozzle

- Sticker Removal
- Putty Softening on Windows
- Applying Window Film

Heat Guard

PRESSURE ROLL

WLACCPRHG

- Edge Banding
- Restoration
- Wrapping
- Plastic Welding
- Roofing

SOLDER SQUAD
