

Weller®

WR3ME MULTI-CHANNEL DESOLDERING, SOLDERING REWORK SYSTEM: **WR3000TS**

**WR3ME + WMRPMS + DXV80 + WMRTMS + Tool stands +
Tips included**

PRODUCT DETAILS

Order number:	WR3000TS
Station power:	WR3ME 400W
Soldering power:	WMRP 55W max
Desoldering power:	DXV80 80W
Tweezer power:	WMRT 80W
Total tool power:	215W

400 watts of power over three independently controlled channels

Application flexibility with up to 20 controllable tool options

Up to 200 watts of hot air power for efficient lead-free rework (optional)

Up to 120 watts of desoldering power for demanding ground plane and multi-layer boards (optional)

Up to 200 watts of soldering power for unmatched application versatility (optional)

Connectivity to low voltage pre-heating plates and soldering baths

System operational right out of the box with all critical components and tips supplied

Sustainability of new tool developments with field accessible firmware update port

Included PC software enables PC connectivity and data logging capabilities

No system cooling requirements ensures lowest operational costs

Large, intuitive LCD display shows critical functions for all 3 channels

Temperature stability of $\pm 2^{\circ}\text{C}$ / $\pm 4^{\circ}\text{F}$ for superior reliability

Rotary vane vacuum pump for long life and quiet operation meets or exceeds mil-std and J-std 001E ind spec

ESD safe

Weller includes tips + PC connectivity and data logging software + 215 watts total tool power
