

120-WATT INLINE DESOLDERING IRON SET

Fast heat-up

The WXDV120 Desoldering iron is ready to use in only 35 seconds (50° - 350°C/200° - 662°F)

Powerful

With the 120-watt desoldering iron, difficult desoldering tasks can be handled easily. No problem for desoldering applications on multi-layer boards

Cartridge change

Easy filter cartridge change with access panel on handle

Internal data storage

Operating parameters are stored in the WXDV120 handle (used with WXD2 station only)

Easy change tiptets

XDS/XDSL tiptets for quick change

ESD safe

Will not damage or degrade sensitive components and is safe for use in protected assembly areas

Must be used with WXD2 control unit
